4 KEY FEATURES YOU WILL LOVE

SHIATSU MASSAGE TECHNIQUE

A deep massage targeting reflex points along the meridian system to release any blocked energy, restore proper energy flow and promoting muscle relaxation. Re-energize and pamper your tired and aching legs after prolonged standing hours.

SCRAPING MASSAGE TECHNIQUE

Commonly known as Gua-Sha, rollers accurately press on the acupressure points on the sole, aiding to relieve stress, fatigue, and helps strengthen the immune system, promoting an overall well-being.

HEAT THERAPY

The warm and soothing sensation helps release built-up tension and relieves stiffness or strains in muscles while stimulating blood circulations at the same time for instant relief and comfort.

AIR PRESSURE

Envelop your calves and feet with 8 pairs of strategically positioned air pressure massage units for comforting massage pleasure. Relieve muscle aches and stimulate pressure points to achieve tantalizing relief for tired calves and feet, especially for ladies who love wearing heels.
