

**PURICLEAN COMPLETE™
3-IN-1 AIR PURIFIER NAP 002H**

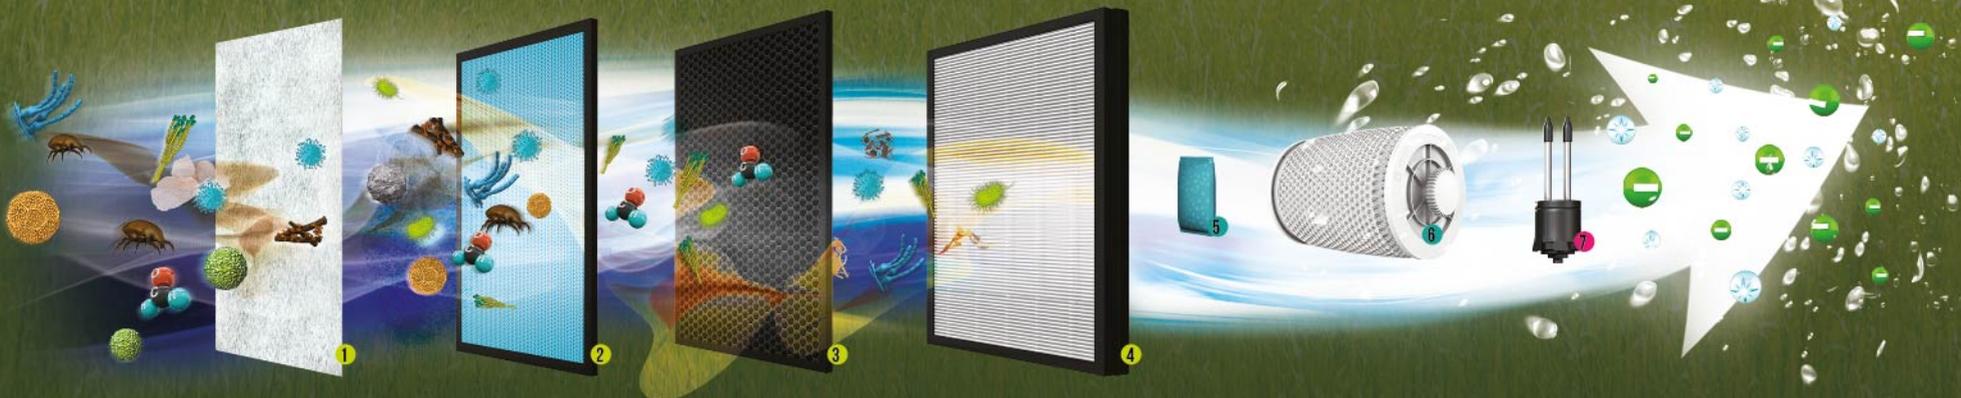

- 26 Watts (Based on high fan speed setting)
- 3-Stage PuriClean Complete™ System
- Air Purification, Humidification & Ionization
- Coverage up to 484 ft² or 45 m²
- 99.97% True HEPA Filter
- Highest Air Flow Rate up to 450 m³/hr
- Semi-Permanent Built-in Ionizer
- ≥ 40 Million Negative Ions Per cm³

RESPIRATORY CARE AND WELLNESS WITH NAP 002H

Novita PuriClean Complete™ 3-in-1 Air Purifier NAP 002H is a highly-integrated multi-functional air purifier that purifies, ionizes and humidifies the surrounding air and satisfies your diverse air quality needs. Designed for an improved user experience with a smart filter diagnosis, this air purifier can also cover a larger coverage area and have a higher air flow rate! With a 4-step comprehensive purification process, the Pre-Mesh Filter first traps larger particles. The Cool Catalyst Filter oxidizes and eliminates airborne germs and harmful volatile organic compounds (VOCs) The Granular Activated Carbon Filter then absorbs these odours and chemicals. The True HEPA Filter removes up to 99.97% of airborne germs and allergens. The semi-permanent built-in ionizer produces more than 40 million negative ions, freshening your indoor air quality and the cool vaporizing humidification improves relative humidity levels for greater comfort.

**3-STAGE PURICLEAN COMPLETE™ SYSTEM
PURIFY · HUMIDIFY · IONIZE**

STAGE 01// AIR PURIFICATION

- STEP 1 PRE-MESH FILTER**
- STEP 2 COOL CATALYST FILTER**
- STEP 3 GRANULAR ACTIVATED CARBON FILTER**
- STEP 4 99.97% TRUE HEPA FILTER**

Trap large particles such as hair, scurf, coarse particulates and fine dust present in the air and prolong the lifespan of subsequent filters.

Oxidizes and breaks down airborne germs and harmful volatile organic compounds (VOCs) at normal room temperature.

Absorb volatile organic compounds (VOCs), unpleasant odour and airborne chemicals.

Removes up to 99.97% of airborne allergens and germs such as fine dust, haze and smoke particulates, pet dander, mold spores, pollen, some bacteria and viruses up to 0.3 micrometre.

STAGE 02// AIR HUMIDIFICATION

- STEP 5 SILVER ANTIMICROBES™ SACHET (OPTIONAL)**
- STEP 6 HUMIDIFYING FILTER**

Eliminate up to 99.96% of bacteria, microbial growth and unpleasant odour for a bacteria-free humidification.

Replenish moisture into the surrounding air via the cool evaporative function and improve humidity levels for greater comfort.

STAGE 03// AIR IONIZATION

- STEP 7 BUILT-IN IONIZER (SEMI-PERMANENT)**

Eliminate airborne allergens and germs such as pollen, pet dander, mold spores, bacteria while freshening up the air quality for an overall calming effect.

◊ Pre-Mesh Filter, Cool Catalyst Filter, Granular Activated Carbon Filter and 99.97% True HEPA Filter are combined as a single filter unit.
