DRINK BETTER WITH NP 330 / NP 335 WITH FAUCET

Novita Water Purifier NP 330 / NP 335 is the smart and savvy solution to get fresh drinking water for your every hydration need from drinking, cooking to even rinsing! Designed with an elegant and slim silhouette that accentuates the space in your kitchen and a simple turn knob for operational ease. Offering utmost convenience with its EzTwist® filter that can be replaced effortlessly and conveniently in just 3 simple steps. Driven by NSF certified advanced ultra-hollow membrane filter, choose between HydroPlus® filter for alkaline antioxidant water or HydroPure™ filter for purified energy water. We invite you to savour the finest water quality possible and also feeling energised, revitalised and well balanced with enhanced hydration. Experience the beauty, convenience and freshness that this ergonomic novita Water Purifier NP 330 / NP 335 has to offer today!

**3-STAGE TRANSFORMATION OF NORMAL TAP WATER
INTO ALKALINE ANTIOXIDANT WATER OR PURIFIED ENERGY WATER**

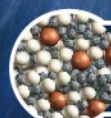

- 1 HYDROPLUS® ELEMENTS**
- Produce alkaline water to promote neutralization of excess acidic waste
 - Promote antioxidant effect to slow down oxidation
 - Smaller water molecule cluster size to promote better hydration and detoxification
 - Irradiate Far Infrared Rays to form energy water to support body metabolism and blood circulation

OR

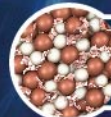

- HYDROPURE™ ELEMENTS**
- Effective dechlorination and removal of heavy metal ions for a total purified water drinking experience
 - Inhibit microbial activity through redox reaction and formation of hydroxyl radicals and hydrogen peroxide
 - Smaller water molecule cluster size to promote better hydration and detoxification
 - Irradiate Far Infrared Rays to form energy water to support body metabolism and blood circulation

- 2 ENHANCED ACTIVATED CARBON FILTER**
- Block and granular activated carbon filter elements adopts adsorption and catalytic reduction mechanism for enhanced and improved purification efficiency
 - Provides activated carbon filtering to remove volatile organic compounds (VOCs) and chemicals such as chlorine
 - Deodorize, improve colour and taste of water
 - Silver anti-bacterial ball inhibit the growth of bacterial within the filter

- 3 NSF CERTIFIED ADVANCED ULTRA HOLLOW MEMBRANE**
- The Korean made advanced ultra-hollow membrane NP 330UF is NSF certified against NSF/ANSI standard 42 to assure you with drinking water quality of national standard
 - Adopts advanced ultra-fine hollow fibre microporous membrane technology
 - Extensive physical size exclusion filtration to remove suspended colloids up to 0.1 micron.
 - Effectively remove up to 99.99% of E.Coli bacteria

OPTION A
HydroPlus®

OPTION B
HydroPure™
